

**25th International
Psycho-Oncology
Society (IPOS)
World Congress of
Psycho-oncology**
24th – 27th September 2024,

FINAL PROGRAMME

Maastricht Exhibition &
Congress Centre (MECC)
Forum 100
6229 GV Maastricht
The Netherlands

A photograph of a Maastricht cityscape featuring a river, buildings, and a stone bridge with arches. The sky is cloudy.

IPOS 2024
Maastricht, the Netherlands

24 - 27 September 2024

Wednesday 25 September 2024

Time: 09:00 - 10:30

Parallel session 1: Recent advances in FCR research

Theme: Survivorship

Chair: Jose Custers, *Radboud university medical center, Nijmegen, The Netherlands*

Presentations:

09:00 - 10:30	Oral #447 Implementation of the Fear of Recurrence Therapy (FORT) group intervention across Canada: preliminary results	Sophie Lebel, University of Ottawa
09:00 - 10:30	Oral #452 The Ottawa Clinical Fear of Recurrence (OCFR) measures for clinical fear of recurrence: Streamlining the self-report's items	Lauriane Giguère, School of Psychology, University of Ottawa
09:00 - 10:30	Oral #458 A clinical pathway for fear of cancer recurrence screening, triage and assessment, and stepped care: Results of an online Delphi consensus process	Ben Smith, The Daffodil Centre, The University of Sydney, a joint venture with Cancer Council NSW
09:00 - 10:30	Oral #464 A network approach to fear of cancer recurrence: The interconnectedness of triggers, appraisals, symptoms, responses and functioning impairment	Melanie Schellekens, Helen Dowling Instituut
09:00 - 10:30	Oral #530 Three-year Trajectories and Associated Factors of Fear of Cancer Recurrence in Newly Diagnosed Head and Neck Cancer Patients: A Longitudinal Study	Esther Deuning- smit, Department of IQ Health, Radboud University Medical Center

Time: 09:00 – 10:30

Parallel session 2: Exploring the factors contributing to a risk of marginalisation in cancer care in Ireland

Theme: Equity, diversity and inclusion in cancer care and research

Chair: Suzanne Guerin, *University College Dublin*

Presentations:

09:00 - 10:30	Oral #660 Identifying individuals at risk of underrepresentation in cancer research: Findings from a rapid review	Suzanne Guerin, University College Dublin
09:00 - 10:30	Oral #663 Exploring the psychosocial outcomes among adults with at risk of underrepresentation	Keith Greegan
09:00 - 10:30	Oral #665 Exploring the experiences that contribute to underrepresentation in adults with cancer in Ireland	Suzanne Guerin, University College Dublin
09:00 - 10:30	Oral #666 Exploring the nature and experience of underrepresentation in adolescents and young adults with cancer in Ireland	Hsiu-Ling Chou

Time: 09:00 – 10:30

Parallel session 3: Cultural Influences on Health Behaviors Related to Cancer: Insights from Taiwan, Israel, Romania and the United State

Theme: Equity, diversity and inclusion in cancer care and research

Chair: Ashley Wei-Ting Wang, *Soochow University, Taiwan*

Presentations:

09:00 - 10:30	Oral #58 Navigating Harmony and Distress: Support-Seeking Coping in Taiwanese Cancer Patients with Breast and Colorectal Cancer at Diagnosis	Ashley Wang, Soochow University, Taiwan
09:00 - 10:30	Oral #130 Neuroendocrine Downstream of Sociocultural Characteristics among Newly Diagnosed Patients with Colorectal Cancer	Youngmee Kim, University of Miami
09:00 - 10:30	Oral #162 “Live Well, Smile, as There are Things that are Out of Your Control”: Fatalistic Beliefs Among Israeli People About Cancer and Screening	Miri Cohen, University of Haifa
09:00 - 10:30	Oral #608 Talk to deal better with the challenges of illness: experience of the Romanian female cancer survivors	Csaba Dégi, Babeş- Bolyai University, Faculty of Sociology and Social Work

Time: 09:00 – 10:30

Parallel session 4: Collaborative networking symposium on European research actions to support cancer survivors in work and employment

Theme: Survivorship

Chair: Jérôme Foucaud, *French National Cancer Institute*

Presentations:

09:00 - 10:30	Oral #431 The individual and his or her context: facing up to the psychological, physical and social barriers to return to work (RTW)	Angela de Boer, Amsterdam UMC, University of Amsterdam,
09:00 - 10:30	Oral #513 Supporting employers to address the work-related needs of cancer survivors in their organizations	Adela Popa, Lucian Blaga University of Sibiu, Romania
09:00 - 10:30	Oral #597 Preparing healthcare professionals to support cancer survivors in RTW	Yvonne Wengstrom, Karolinska Institutet
09:00 - 10:30	Oral #602 The social security system: reducing inequalities in support	Angeliqde de Rijk, Maastricht University

Time: 09:00 – 10:30

Parallel session 5: Cancer and the Family – Supporting the Entire Family When One Family Member Receives a Cancer Diagnosis

Theme: Cancer care across the life span (children, adolescent & young adults, adults, and older adults)

Chair: Beverley Lim Høeg, *Danish Cancer Institute*

Presentations:

09:00 - 10:30	Oral #176 ‘Resilient Caregivers’: a randomized trial of a resilience-based intervention for psychologically distressed partner caregivers of patients with cancer	Beverley Lim Høeg, Danish Cancer Institute
09:00 - 10:30	Oral #202 Facing Existential Loneliness: Exploring Adolescents’ Needs for Support during their Mother’s Breast Cancer Trajectory	Anne Katrine Hartmann Søbry, University of Southern Denmark
09:00 - 10:30	Oral #512 SOFUS family therapy for children in palliative care: Development and feasibility evaluation	Pernille Bidstrup, Danish Cancer Institute
09:00 - 10:30	Oral #603 Stick Together – Feasibility study of a digital dyadic intervention for younger women with breast cancer and their partners	Annika von Heymann, Cancer Survivorship and Treatment Late Effects (CASTLE) – A, Copenhagen University Hospital
09:00 - 10:30	Oral #396 Burden and support needs of family caregivers	Esther Reutner, Department Peer Support Research, Comprehensive Cancer Center Freiburg, University Medical Center Freiburg

Time: 09:00 – 10:30

Parallel session 6: Implementann of return-to-work interventions for cancer survivors : strategies and insights from various settings

Theme: Work rehabilitation

Chair: Bertrand Porro, *Institut de Cancérologie de l'Ouest*

Presentations:

09:00 - 10:30	Oral #553 Hospital return-to-work coordination for breast cancer survivors receiving neoadjuvant chemotherapy and working in the private sector: protocol of a pilot randomized controlled study (COHRAT)	Bertrand Porro, Institut de Cancérologie de l'Ouest
09:00 - 10:30	Oral #557 Return-to-work in Breast Cancer Survivors: Challenges in Piloting an Innovative Intervention within Primary Care	Karine Bilodeau, University of Montreal

09:00 - 10:30	Oral #636 Pilot implementation of MiLES: a web-based intervention targeted at managers with the aim of enhancing the successful return to work of employees with cancer	Michiel Greidanus, Amsterdam Public Health research institute, Societal Participation and Health
09:00 - 10:30	Oral #64 Evaluation of an education program for general practitioners in training on discussing work with cancer patients	Mariska de Wit, Amsterdam UMC, Department of Public and Occupational Health, Coronel Institute of Occupational Health

Time: 09:00 – 10:30

Parallel session 7: Palliative

Theme:

Chair:

Presentations:

09:00 - 10:30	Oral #331 Dependence at the end of life: Contribution to psychological distress in patients with advanced cancer	Rebecca Philipp, Department of Medical Psychology, University Medical Center Hamburg- Eppendorf
09:00 - 10:30	Oral #284 Embracing Existential Connections: A Phenomenological Exploration of End-of-Life Psychotherapy	Antonín Sokol, Masaryk Memorial Cancer Institute
09:00 - 10:30	Oral #505 Living longer with incurable cancer: ‘it’s amazing that I’m alive, it’s also amazingly difficult’	Mildred Monpellier, Rotterdam University of Applied Sciences - Research Centre Innovations in Care
09:00 - 10:30	Oral #44 Combined Early Palliative Care in Patients with Non-Small-Cell Lung Cancer: a multi-centric randomised controlled trial in Southwest China	Mengting Chen, Chongqing University Cancer Hospital
09:00 - 10:30	Oral #332 The prevalence of existential distress in patients with advanced cancer	Sigrun Vehling, University Medical Center Hamburg- Eppendorf

09:00 - 10:30 **Oral #27 DEPRESSION AND DESIRE FOR HASTENED DEATH (DHD) IN PATIENTS WITH CANCERS AT THE UNIVERSITY COLLEGE HOSPITAL (UCH) IBADAN** Agboola Adigun, Department of Psychiatry, University College Hospital

Time: 09:00 – 10:30

Parallel session 8: DIGITAL

Theme:

Chair:

Presentations:

09:00 - 10:30	Oral #297 Evaluating a Web-based Mindfulness and Skills Training for Oncological Patients – The Reduct Trial	Jana Maria Heinen, Department of Psychosomatic Medicine and Psychotherapy, University Hospital Tübingen, Eberhard Karls University Tübingen
09:00 - 10:30	Oral #632 An online support program for breast cancer (BC) and head and neck cancer (HNC) patients undergoing radiotherapy (OPUS) – Preliminary results	Theresa Müller, National Center for Tumor Diseases (NCT/UCC), University Hospital Carl Gustav Carus
09:00 - 10:30	Oral #345 Designing digital health tools for helping cancer patients manage symptoms at home and optimize quality of life	Angelos Kassianos, Cyprus University of Technology
09:00 - 10:30	Oral #634 https://prosoma.slack.com/archives/C06KVHU8BQD/p1709850690746729	Emanuela Kufel, Prosoma
09:00 - 10:30	Oral #158 A qualitative exploration of factors that influence engagement with a digital mental health platform for women with metastatic breast cancer: Finding My Way – Advanced	Lisa Beatty, Flinders University
09:00 - 10:30	Oral #211 Leveraging technology to improve psychosocial outcomes of caregivers of people living with cancer in Vietnam	Olinda Santin, Queen's University Belfast

Time: 13:30 – 15:00
Parallel session 9: POCON KICK OFF

Time: 13:30 – 15:00
Parallel session 10: Managing Cancer and Living Meaningfully (CALM)- extending the boundaries.

Theme: Palliative and end-of-life care
Chair: Froukje de Vries, *Netherlands Cancer Insitute*

Presentations:

13:30 - 14:30	Oral #295 Managing Cancer and Living Meaningfully (CALM): Experiences of the patients with advanced cancer with a longer life expectancy	Marianne Kool, Center for Quality of Life, Antoni van Leeuwenhoek - Netherlands Cancer Institute
13:30 - 14:30	Oral #341 Including Patients with Brain Tumors in Psychological Interventions: Two Phase II Single-Arm Investigations of Managing Cancer and Living Meaningfully	Ashlee Loughan, Virginia Commonwealth University
13:30 - 14:30	Oral #514 An online adaptation of Managing Cancer and Living Meaningfully (iCALM): Development and preliminary feasibility and acceptability testing	Sarah Hales, Princess Margaret Cancer Centre
13:30 - 14:30	Oral #534 An adaptation of Managing Cancer and Living Meaningfully (CALM) to address posttraumatic states following the diagnosis or recurrence of life-threatening or advanced cancers: A thematic synthesis of qualitative studies	Carmine Malfitano, Princess Margaret Cancer Centre, University Health Network

Time: 13:30 – 15:00
Parallel session 11: Bridging Gaps in Care for Older Adults with Cancer and their Caregivers: Psychological Characteristics, Communication Strategies, and Interventions

Theme: Complementary and integrative cancer care
Chair: Gil Goldzweig, *The Academic college of Tel-Aviv Jaffa*

Presentations:

13:30 - 14:30	Oral #182 Can two walk together, except they be agreed? (AMOS 3:3). Actor Partner Interdependence Model of Hope, social support and depression among older patients diagnosed with cancer and their spousal caregivers.	Gil Goldzweig, The Academic College of Tel Aviv Yaffo
13:30 - 14:30	Oral #245 Perception of support received by caregivers in older people with cancer during their journey and subsequent self-care	Tania Estapé, Psychosocial Oncology, FEFOC FUNDACIO
13:30 - 14:30	Oral #304 Communication with Older Adults with Cancer and their Caregivers: Skill Uptake	Patricia A Parker, Memorial Sloan Kettering Cancer Center

13:30 - 14:30 **Oral #358 Cancer and Aging: Reflections for Elders (CARE): A Psychotherapy Intervention for Older Adults with Cancer** Christian J Nelson,
Memorial Sloan
Kettering Cancer
Center

Time: 13:30 – 15:00

Parallel session 12: Exploring the intersection of food insecurity, malnutrition, and cancer care: Insights and interventions for equity in oncology

Theme: Equity, diversity and inclusion in cancer care and research

Chair: Melissa Henry, *McGill University*

Presentations:

13:30 - 14:30 **Oral #338 Scoping review of equity tools for oncology and palliative care** Melissa Henry,
McGill University

13:30 - 14:30 **Oral #340 Development of an intervention to address disparities in access to breast cancer immunotherapy: Integrated Cancer Care Access Network for Breast Cancer Immuno-Oncology (ICCAN-IO)** Devika Jutagir,
Memorial Sloan
Kettering Cancer
Center

13:30 - 14:30 **Oral #343 Exploring the Interplay of Food Insecurity, Gut Microbiome, and Cancer Disparities: Findings from a Prospective Longitudinal Study** Haley Deamond,
McGill University

13:30 - 14:30 **Oral #411 Food Insecurity Interventions: Research, Service, and Policy Imperatives** Francesca Gany,
Memorial Sloan
Kettering Cancer
Center

Time: 13:30 – 15:00

Parallel session 13: The LInC Study: A study on the long term impact of pediatric cancer on adolescents and emerging adults and their families with a specific focus on identity, illness-related experiences and well-being.

Theme: Survivorship

Chair: Jurgen Lemièr, *KU Leuven/ UZ Leuven*

Presentations:

13:30 - 14:30 **Oral #394 Associations between cancer-related distress and fatigue in childhood cancer survivors: a longitudinal study** Deveny Vanrusselt,
Department of
Pediatric
Hematology and
Oncology, University
Hospitals Leuven

13:30 - 14:30 **Oral #518 Non-suicidal self-injury in adolescent and emerging adult childhood cancer survivors: A first exploration** Sara Campens, KU
Leuven

13:30 - 14:30 **Oral #595 Psychological functioning of childhood cancer survivors and their parents: Longitudinal associations** Elise Van Laere, KU
Leuven

Time: 13:30 – 15:00

Parallel session 14: Psycho-oncology screening and interventions, the tough process from development to implementation

Theme: Implementation science, knowledge translation and synthesis

Chair: Judith Prins, *Radboud University Medical Centre*

Presentations:

13:30 - 14:30	Oral #167 IMPLEMENTING PATIENT REPORTED OUTCOMES (PROMS) IN PEDIATRIC ONCOLOGY CARE: LESSONS LEARNED	Martha Grootenhuys, Princess Maxima Centre
13:30 - 14:30	Oral #219 THE DEVELOPMENT AND IMPLEMENTATION OF COGNITIVE BEHAVIOR THERAPY FOR CANCER RELATED FATIGUE	Hans Knoop, Department of Medical Psychology, Amsterdam UMC, University of Amsterdam
13:30 - 14:30	Oral #225 The translational research pathway of three interventions in psychosocial care in the Netherlands: meaning-centered group psychotherapy, life review therapy and Oncokompas	Irma Verdonck-de Leeuw, AmsterdamUMC
13:30 - 14:30	Oral #420 Similarities and differences in the use of two evidence-based online psychological interventions for cancer survivors in research and real-world settings	Judith Prins, Radboud University Medical Centre, Department of Medical Psychology

Time: 13:30 – 15:00

Parallel session 15: Survivorship

Theme:

Chair:

Presentations:

13:30 - 15:00	Oral #133 Mental health after a head & neck cancer diagnosis: symptoms and drivers for early detection	Joan C. Medina, Universitat Oberta de Catalunya
13:30 - 15:00	Oral #448 Fear of Cancer Recurrence as Catalyst for Positive Transformations: Insights from Cancer Spouses' Experiences	Egle Urbutiene, PhD student, Clinical Psychologist
13:30 - 15:00	Oral #647 Anxiety and depression symptoms in young adults up to 5 years after being diagnosed with cancer	Sarah Marklund, Umeå university
13:30 - 15:00	Oral #198 Partnering to implement statewide cancer survivorship care policy	Tegan Nash, Australian Cancer Survivorship Centre, Peter MacCallum Cancer Centre
13:30 - 15:00	Oral #465 Impact of Disease Stage on Unmet Supportive Care Needs in Women with Breast Cancer: A Qualitative Analysis of women's perspectives during Early and Metastatic Stages	Victoria White, Deakin University

13:30 - 15:00 **Oral #455 Predictors of Mental and Physical Health in Metastatic Breast Cancer Survivors** Michelle Joy Naughton, The Ohio State University

Time: 13:30 – 15:00

Parallel session 16: Prevention

Theme:

Chair:

Presentations:

13:30 - 15:00	Oral #134 Alcohol consumption and its determinants among post-menopausal breast cancer survivors: first results from the longitudinal observational OPTIMUM study.	Meeke Hoedjes, Tilburg University
13:30 - 15:00	Oral #122 The association between A body shape index and the risk of breast cancer: a cross-sectional study	wenxing gao, PLA medical school
13:30 - 15:00	Oral #694 Increasing awareness of gynaecological cancer and early detection in students: pilot study of a university-based educational and behaviour change intervention.	Trish Holch, Psychology, Leeds Beckett School of Humanities & Social Sciences
13:30 - 15:00	Oral #326 Sexual health of patients with lung cancer: a systematic review.	Louise Zanni, Laboratoire Psychopathologie et Processus de Santé, Université Paris Cité
13:30 - 15:00	Oral #435 Efficacy, tolerability, and psychopathological predictors of antidepressant therapy in cancer patients.	Antonio Restaino, Università Cattolica del Sacro Cuore
13:30 - 15:00	Oral #645 Aesthetic Care as a Catalyst for Healing: Preliminary Effects of a Beauty Care Intervention on Psychosocial Recovery in Italian Women with Breast Cancer	Denise Vagnini, Department of Psychology, Università Cattolica del Sacro Cuore

Thursday 26 September 2024

Time: 09:00 – 10:30

Parallel session 17: Cancer treatment related symptoms

Theme:

Chair:

Presentations:

09:00 - 10:30	Oral #53 Cranial radiotherapy-related neurocognitive decline: A voxel-based imaging analysis	Charlotte Sleurs, Dept. Cognitive Neuropsychology, Tilburg University
09:00 - 10:30	Oral #205 Physiological and Psychosocial Challenges Experienced by Younger Colorectal Cancer Survivors. A Qualitative Study.	Claudia Redeker, Birkbeck College, University of London
09:00 - 10:30	Oral #80 Pretreatment fatigue in breast cancer patients: comparison with healthy controls and associations with biopsychosocial variables	Patricia Blicke, 1 Division of Physical Activity, Prevention and Cancer, German Cancer Research Center (DKFZ)
09:00 - 10:30	Oral #68 A mixed-method pilot randomized controlled trial of a remote supportive intervention for individuals taking oral anticancer agents	Saima Ahmed, McGill University
09:00 - 10:30	Oral #315 Long-term fatigue in oropharyngeal cancer survivors post radiotherapy: the ROC-oN Study	Zsuzsanna Iyizoba- Ebozue, Department of Clinical Oncology, Leeds Cancer Centre
09:00 - 10:30	Oral #439 Identifying the gap between cancer-related fatigue management guidelines and clinical practice: a systematic review	Marijn Witziers, Department of Health Psychology, University Medical Center Groningen

Time: 09:00 – 10:30

Parallel session 18: DIGITAL

Theme:

Chair:

Presentations:

09:00 - 10:30	Oral #528 Strategies for national dissemination and implementation of a blended intervention for fear of cancer recurrence.	Esther Deuning-smit, Department of IQ Health, Radboud University Medical Center, Nijmegen, The Netherlands
09:00 - 10:30	Oral #462 Psycho-oncology clinicians' perceptions of the acceptability of blended psychological therapy for the treatment of anxiety and depression in patients with cancer: a qualitative interview study	Kelly Ferrao Nunes-Zlotkowski, The University of Sydney
09:00 - 10:30	Oral #278 Evaluation of the Effects of Virtual Nature Therapy on Emotional Wellbeing in Oncology Waiting Rooms	Zdeňka Barešová, Department of Medical Psychology and Psychosomatics, Faculty of Medicine, Masaryk University
09:00 - 10:30	Oral #254 Does an online Healthy Living after Cancer program with telephone coaching continue to improve outcomes compared to a self-guided control?	Morgan Leske, College of Education, Psychology, and Social Work, Flinders University
09:00 - 10:30	Oral #398 Randomized controlled trial of group blended and individual unguided online mindfulness-based cognitive therapy for people with cancer	Nasim Badaghi, Department of Psychiatry, Radboud University Medical Center
09:00 - 10:30	Oral #216 Empowerment among breast cancer survivors using an online peer support community	Marina Ruiz Romeo, The Bellvitge Biomedical Research Institute IDIBELL, Psychooncology and Digital Health Group

Time: 09:00 – 10:30

Parallel session 19: Families

Theme:

Chair:

Presentations:

09:00 - 10:30	Oral #410 Virtual Bereavement Support - Improving Care of Families	Sue Morris, Dana-Farber Cancer Institute
09:00 - 10:30	Oral #388 Patterns of supportive care use in the first two years post-diagnosis: associations with reported need for help and geographic isolation in Australian parents with a child with Acute Lymphoblastic Leukaemia	Clarissa Schilstra, UNSW Sydney and the Behavioural Sciences Unit, Kids Cancer Centre, Sydney Children's Hospital
09:00 - 10:30	Oral #22 Dyadic Mindful Self-Compassion Intervention for Lung Cancer Patients and Their Family Caregivers: A Pilot Randomized Controlled Trial	Juan Li, Xiangya School of Nursing of Central South University
09:00 - 10:30	Oral #55 Harmful communication behaviors in cancer care: a systematic review of patients and family caregivers perspectives	Janine Westendorp, Leiden University
09:00 - 10:30	Oral #236 How to Support Cancer Patient Families: An Example of Psycho-Oncological Intervention at All Stages	Eloísa Estela da Cunha Fernandes, Portuguese League Against Cancer - Northern Branch
09:00 - 10:30	Oral #87 Development and implementation of a cultural navigation program supporting international patients and families, including those displaced by war.	Erica Sirrino, St. Jude Children's Research Hospital

Time: 09:00 – 10:30

Parallel session 20: Equity, diversity and inclusion in cancer care and research

Theme:

Chair:

Presentations:

09:00 - 10:30	Oral #392 Supporting cancer clinicians and researchers to provide culturally inclusive care to Indigenous Australians: an e-learning resource	Gail Garvey, University of Queensland
09:00 - 10:30	Oral #539 Why participate? Patients and providers' views on commercial clinical trials for advanced cancer in Santiago, Chile	Loreto Fernandez-Gonzalez, Instituto Oncologico FALP
09:00 - 10:30	Oral #578 Recommendations to Improve Breast Cancer Care for Black Women in Canada: Patient Perspectives	Ielaf Khalil, Mount Sinai Hospital

09:00 - 10:30	Oral #199 Psychological care needs and financial burdens among lymphoma patients in Taiwan	Chihtao Cheng, Koo Foundation Sun Yat-Sen Cancer Center
09:00 - 10:30	Oral #556 The State Of Psychosocial Oncology Research Among Canadian Black Communities: A Scoping Review	Ghizlène Sehabi, Faculty of Social Sciences, University of Ottawa
09:00 - 10:30	Oral #32 Utilization of Telehealth Behavioral Oncology Services Within Underserved Populations During COVID-19	Adaixa Padron Wilborn, TGH Cancer Institute

Time: 09:00 – 10:30
Parallel session 21: Survivorship children

Theme:
Chair:

Presentations:

09:00 - 10:30	Oral #376 Evolution of cardiorespiratory fitness over a 1-year period in childhood cancer survivors and possible limiting factors	Nel Van Ermengem, Department of Rehabilitation Sciences, KU Leuven
09:00 - 10:30	Oral #367 'Engage': A new intervention to support distance-delivered childhood cancer survivorship care	Jordana McLoone, The University of New South Wales
09:00 - 10:30	Oral #76 The Impact of Health Conditions and Psychosocial Risk and Protective Factors on Psychosocial Functioning in Survivors of Childhood Cancer: the DCCSS-LATER Study	Anne Maas, Princes Máxima Center for Pediatric Oncology
09:00 - 10:30	Oral #272 Unmet supportive care needs of caregivers of children with cancer	Shraddha Namjoshi, Indian Institute of Technology Hyderabad
09:00 - 10:30	Oral #591 Emotion and Symptom-focused Engagement (EASE): Pilot Trial of a Psychotherapeutic Intervention for Family Caregivers of Children with Acute Leukemia	Ally Yu, Princess Margare Cancer Centre, University Health Network
09:00 - 10:30	Oral #12 Implementation of the Bright Ideas Intervention among Caregivers of Children with Cancer in Uganda: A Promising Approach for Psychosocial Support.	Rachel Dr Kansime, Joint Clinical Research Centre-Mulago ational Specilaised Hospital

Time: 09:00 – 10:30

Parallel session 22: Cancer care across the life span TBA

Theme:

Chair:

Presentations:

09:00 - 10:30	Oral #147 Comparative policy analysis of cancer survivors' equitable access to education	Lisa Carey, Kennedy Krieger Institute / Johns Hopkins University School of Education
09:00 - 10:30	Oral #471 How does a cancer diagnosis affect economic, education, social, and health outcomes? A matched cohort study of adolescents and young adults in England.	Richard Mattock, University of Leeds
09:00 - 10:30	Oral #546 Factors associated with the use of the term 'cancer' in parent-child discussions about parental cancer: insights from parents' experiences	Salomé Lamal, Université Libre de Bruxelles
09:00 - 10:30	Oral #175 Towards understanding post-treatment self-management learning needs of young adults with hematological cancer	Benedicta Hartono, Faculty of Nursing, Université de Montréal
09:00 - 10:30	Oral #416 Dyadic effects of illness cognition and psychological distress among young and middle-aged couples with colorectal cancer: The mediating role of dyadic coping	Qian Sun, Sun Yat-sen University
09:00 - 10:30	Oral #47 Parent's/caregiver's perspectives on the reasons and strategies for minimizing childhood cancer treatment abandonments at Muhimbili National Hospital (MNH), Tanzania	Elianeth A. Kiteni, Agha Khan university

Time: 09:00 – 10:30

Parallel session 23: Implementation

Theme:

Chair:

Presentations:

09:00 - 10:30	Oral #48 Facilitating patient-oncologist communication in advanced treatment-resistant cancer: development and feasibility testing of a question prompt list.	Anne Brédart, Institut Curie
09:00 - 10:30	Oral #301 Moving beyond barriers: The development of evidence-based strategies to improve the implementation of Patient Reported Outcome Measures (PROMs) in clinical oncology care.	Eva Boomstra, Department of Psychosocial Research and Epidemiology, Netherlands Cancer Institute
09:00 - 10:30	Oral #135 THE ATTEMPT TO CONDUCT GROUPS BY THE PROGRAM CONQUER FEAR DURING THE WAR IN UKRAINE	Kateryna Lysnyk, PhD student of Psychology Faculty Drahomanov Ukrainian State University

09:00 - 10:30	Oral #524 From Balint groups for oncologists to support groups for refugees	Alexander Kudryavitskiy, https://kovcheg.live
09:00 - 10:30	Oral #428 Synthesizing expertise from researchers, educators, health care professionals and experts by experience in oncosexology in The Netherlands	Ilaniek I.C. Zantingh, Antoni van Leeuwenhoek
09:00 - 10:30	Oral #262 The effectiveness of Eye Movement Desensitization and Reprocessing (EMDR)-therapy on Posttraumatic Stress Disorder (PTSD) symptoms and Quality of Life in patients with cancer	Helen Driessen, Erasmus Medical Center

Time: 09:00 – 10:30

Parallel session 24: Innovation

Theme:

Chair:

Presentations:

09:00 - 10:30	Oral #356 The COMFORT Trial: A Randomised Control Trial Comparing Group-Based COMpassion-FOcused Therapy Techniques And Breathing Pattern ReTraining With Treatment As Usual On The Psychological Functioning Of Patients Diagnosed With Cancer Recurrence.	Sinead Lynch, Mater Misericordiae University Hospital
09:00 - 10:30	Oral #360 Acceptance and Commitment Therapy to increase compliance to sexual dysfunction treatments in men with prostate cancer: Results from a randomized controlled trial	Christian J Nelson, Memorial Sloan Kettering Cancer Center
09:00 - 10:30	Oral #322 Trajectories of objectively measured stress after a cervical cancer diagnosis: A longitudinal analysis of scalp hair cortisol	Belle H. de Rooij, Netherlands Comprehensive Cancer Organisation (IKNL)
09:00 - 10:30	Oral #454 The World of Mental Challenge: Contributions of Health-Related Quality of Life, Cancer Related Fatigue and Emotional Distress on Mental Health of Cancer Patients	Nkechi Chukwuemeka, University of Nigeria
09:00 - 10:30	Oral #696 Worst-case Scenarios as a Strategy to Understand and Reduce Fear of Progression and Trauma Symptoms in Late-Stage Cancer	Joanna J Arch, University of Colorado Boulder
09:00 - 10:30	Oral #463 General practice support for oncology patients; the added value of an oncology practice nurse	Charlotte Maas, Department of Public Health, Erasmus MC

Time: 13:00 – 14:15

Parallel session 25: Cancer and Fertility

Theme: Patient oriented research approaches

Chair: Vicky Lehmann, *Department of Medical Psychology, Amsterdam UMC*

Presentations:

- | | | |
|---------------|--|--|
| 13:00 - 14:15 | Oral #203 Prevalence and predictors for fertility-related distress among 1010 young adults 1.5 years following cancer diagnosis – results from the Fex-Can Cohort | Claudia Lampic,
Umeå University |
| 13:00 - 14:15 | Oral #252 Supporting oncofertility decisions: decision aids and other tools | Michelle Peate,
Department of
Obstetrics,
Gynaecology and
Newborn Health,
Royal Women's
Hospital, University
of Melbourne |
| 13:00 - 14:15 | Oral #264 Perceived consequences of fertility preservation (or lack thereof) on young cancer survivors | Vicky Lehmann,
Department of
Medical Psychology,
Amsterdam
University Medical
Center |
| 13:00 - 14:15 | Oral #349 Fertility status assessment among female survivors of childhood cancer | Brooke Cherven,
Aflac Cancer and
Blood Disorders
Center, Emory
University School of
Medicine |

Time: 13:00 – 14:15

Parallel session 26: The Supportive Oncology Collaborative: Enhancing Access and Care through Integrated Supportive Services

Theme: Innovation in psychosocial oncology interventions

Chair: Carrie Wu, *Dana-Farber Cancer Institute*

Presentations:

13:00 - 14:15	Oral #362 Doubling Down on Access: How the Integration of Telemedicine and Collaborative Care Expands Reach in Supportive Oncology Services	Carrie Wu, Dana-Farber Cancer Institute
13:00 - 14:15	Oral #378 Integrating Palliative Care with Psychosocial Care in the Supportive Oncology Collaborative	Kate Lally, Dana-Farber Cancer Institute/Harvard Medical School
13:00 - 14:15	Oral #383 Site-Specific Clinical Implementation of Supportive Oncology Collaborative Teams	Stephanie C Tung, Dana-Farber Cancer Institute
13:00 - 14:15	Oral #386 The Role of Psychology in The Supportive Care Collaborative	Cristina Pozo Kaderman, Dana Farber Cancer Institute, Harvard Medical School

Time: 13:00 – 14:15

Parallel session 27: New digital technologies to support cancer patients: benefits, challenges and ethical implications

Theme: Digital health and cancer care

Chair: Friederike Kendel, *Charité - Universitätsmedizin Berlin*

Presentations:

13:00 - 14:15	Oral #527 Online or Face-to-Face? Differences and challenges in the oncological setting	Friederike Kendel, Charité - Universitätsmedizin Berlin, Gender in Medicine
13:00 - 14:15	Oral #531 Digital therapeutic improving distress in cancer patients: a nationwide randomized controlled trial	Franziska Springer, University of Leipzig Medical Center, Comprehensive Cancer Center Central Germany (CCCG), Leipzig

13:00 - 14:15	Oral #533 Parenting with pleasure - despite cancer? Online-based parenting program for parents with cancer	Tanja Zimmermann, Medizinische Hochschule Hannover
13:00 - 14:15	Oral #535 The right not to know in the digital age: perspective of patients with a family history of breast and ovarian cancer	Paula Thomas, Charité - Universitätsmedizin Berlin, Gender in Medicine

Time: 13:00 – 14:15

Parallel session 28: Fear of progression, uncertainty and resilience among patients with advanced cancer living with a long-term response to novel therapies

Theme: Survivorship

Chair: Melanie P.J. Schellekens, *Helen Dowling Institute*

Presentations:

13:00 - 14:15	Oral #429 Development and evaluation of a clinical interview for high fear of progression in people with advanced cancer receiving systemic treatment	Jose A.E. Custers, Radboud university medical center
13:00 - 14:15	Oral #526 Living with Lung Cancer: the experiences of fear of progression in individuals with lung cancer receiving immunotherapy or targeted therapy	Alanna Chu, The University of Ottawa
13:00 - 14:15	Oral #598 Protective factors of resilience in advanced cancer patients obtaining long-term response to immunotherapy or targeted therapy: an Ecological Momentary Assessment study.	Laura Zwanenburg, Helen Dowling Institute
13:00 - 14:15	Oral #612 Validation of the Dutch version of the Mishel Uncertainty in Illness Scale-C in patients with advanced cancer receiving systemic treatment	Cheyenne Braam, Radboud University Medical Center, Department of Medical Psychology

Time: 13:00 – 14:15

Parallel session 29: Creating meaning and purpose: adaptations and developments in Meaning-Centered Psychotherapy

Theme: Innovation in psychosocial oncology interventions

Chair: Annekathrin Sender, *University of Leipzig Medical Center, Comprehensive Cancer Center Central Germany (CCCG), Department of Medical Psychology and Medical Sociology*

Presentations:

13:00 - 14:15	Oral #235 Meaning Centered Psychotherapy in portuguese cancer patients – a meaningful experience	Guida Da Ponte, Department of Psychiatry and Mental Health - Centro Hospitalar Barreiro-Montijo
13:00 - 14:15	Oral #248 “Meaning-Centered Psychotherapy integrating Essential Care”	Tirso Ventura Faci, Psychiatrist, University of Zaragoza, Spain.
13:00 - 14:15	Oral #265 Though I walk through the valley of the shadow of death, I will fear no evil for thou art with me (Psaems 23:4): Adopting Meaning-Centered Psychotherapy in Multicultural Israel	Gil Goldzweig, The Academic College of Tel Aviv Yaffo
13:00 - 14:15	Oral #478 LOGOS: Meaning-Centered Psychotherapy in a hybrid design for adult cancer survivors in aftercare	Annekathrin Sender, University of Leipzig Medical Center Comprehensive Cancer Center Central Germany (CCCG)
13:00 - 14:15	Oral #42 From paper version to digital solution -The development of a digital Decision Aid to be used in cancer screening in Sweden	Anna Jervaeus, Karolinska Institutet, Stockholm, Sverige

Time: 13:00 – 14:15

Parallel session 30: Physical activity as medicine for persistent pain after treatment for cancer: from theory to practice

Theme: Cancer treatment-related symptom and toxicity management

Chair: Lore Dams, *University of Antwerp*

Presentations:

13:00 - 14:15	Oral #354 Implementing behavioural change in breast cancer survivors with chronic pain through physiotherapy	Marthe Van Overbeke, University of Antwerp, Antwerp, Belgium. Ghent University
13:00 - 14:15	Oral #372 Opening the Black Box in Interventions: Development of a Program Theory	Emma Tack, University of Antwerp, Antwerp, Belgium. Ghent University, Ghent
13:00 - 14:15	Oral #401 Barriers and facilitators to physical activity in cancer survivors with pain	An De Groef, University of Antwerp, Antwerp, Belgium
13:00 - 14:15	Oral #446 Tailored pain science education for individuals living with persistent pain after breast cancer	Lore Dams, MOVANT, University of Antwerp

Time: 13:00 – 14:15

Parallel session 31: Sex and Intimate Relationships in Unpartnered Young Adult Survivors of Cancer

Theme:

Chair:

Time: 13:00 – 14:15

Parallel session 32: The value of informal care by trained volunteers for patients with cancer and their relatives

Theme: Community-based and volunteer cancer care services

Chair: Johanna Kasperkovitz-Oosterloo, *Program manager at IPSO*

Presentations:

13:00 - 14:15	Oral #324 Cooperation formal and informal care	Anita Wesselius-Wuestman, Human Talent Consulting
13:00 - 14:15	Oral #480 Informal care for patients with cancer and their relatives in the Netherlands and its added value	Johanna Kasperkovitz-Oosterloo, Program manager at IPSO
13:00 - 14:15	Oral #489 Informal psychosocial cancer care – an international survey	Lucienne Berenschot, Berenschot Onderzoek en Advies / Ecorys

13:00 - 14:15 **Oral #491 Required changes in the healthcare system to make effective matched care possible** Johanna Kasperkovitz-Oosterloo, Program manager at IPSO

Time: 14:15 – 15:30

Parallel session 33: Sustainable implementation of online self-management tools: international challenges and a Dutch implementation example

Theme: Digital health and cancer care

Chair: Chantal Lammens, *The Netherlands Comprehensive Cancer Organisation, Utrecht, The Netherlands*

Presentations:

14:15 - 15:30 **Oral #95 What is needed for improved uptake and adoption of digital aftercare programs by cancer survivors: a mixed methods study applying the COM-B model** Liza van Deursen, Center for Public Health, Care and Society, National Institute for Public Health and the Environment

14:15 - 15:30 **Oral #111 Clinical implementation of an eHealth Appstore for Dutch cancer survivors and their relatives** Anne de Korte, The Netherlands Comprehensive Cancer Organisation

14:15 - 15:30 **Oral #327 Introducing a digital patient-facing support app for breast cancer in the United Kingdom and the Netherlands: a comparative evaluation** Anne Bruinvels, Px HealthCare

14:15 - 15:30 **Oral #677 Effectiveness and Safety of the Untire App for Managing Moderate-to-Severe Cancer-Related Fatigue in German Patients: A Randomized Controlled Trial and Insights on Market Access** Simon Spahrkäs, Tired of Cancer B.V.

Time: 14:15 – 15:30

Parallel session 34: Ultra-Brief Behavioral Interventions for Cancer Survivors: When Less is More

Theme: Innovation in psychosocial oncology interventions

Chair: Christopher J. Recklitis, *Dana-Farber/Harvard Cancer Center*

Presentations:

14:15 - 15:30 **Oral #90 Sexual Health and Rehabilitation (SHARE): A Brief Clinical Intervention Female Cancer Survivors** Sharon Bober, Dana-Farber Cancer Institute/Harvard Medical School

14:15 - 15:30 **Oral #148 A brief psychoeducational intervention for self-reported cancer-related cognitive impairment: Quantitative and qualitative results of a single-arm prospective study** Lori Bernstein, Princess Margaret Cancer Centre

14:15 - 15:30 **Oral #194 Sleep Treatment Education Program-1 (STEP 1): A Randomized Trial Testing a Single-Session Behavioral Intervention for Cancer Survivors with Insomnia** Christopher J Recklitis, Dana-Farber/Harvard Cancer Center

Time: 14:15 – 15:30
Parallel session 35: ROUND TABLE Towards equity in psychosocial oncology research: a roundtable discussion with researchers from Australia, Denmark, and the Netherlands.
Theme: Equity, diversity and inclusion in cancer care and research
Chair: Meeke Hoedjes, *Tilburg University*

Presentations:

- | | | |
|---------------|---|--|
| 14:15 - 15:30 | Oral #379 Making psychosocial oncology research in the Netherlands more inclusive: Results from a cross-sectional survey study among researchers. | Meeke Hoedjes,
CoRPS - Center of Research on Psychological and Somatic disorders, Department of Medical and Clinical Psychology, Tilburg University, Tilburg, the Netherlands |
| 14:15 - 15:30 | Oral #381 How to involve and include vulnerable patients with cancer in research – experiences from the Danish Research Center for Equality in Cancer (COMPAS) | Susanne Oksbjerg Dalton, Cancer Survivorship, Danish Cancer Institute |

Time: 14:15 – 15:30
Parallel session 36: ESGO
Theme:
Chair:

Time: 14:15 – 15:30
Parallel session 37: WHO
Theme:
Chair:

Friday 27 September 2024

Time: 11:00 – 12:15

Parallel session 38: ROUND TABLE: Understanding culture, race and ethnicity, and sex and gender in pediatric and young adult cancer research: A review of challenges and recommendations for more equitable, inclusive, and culturally responsive research practices

Theme: Sociodemographic, culture, and sex/gender issues in cancer
Chair: Sharon Hou, *University of Calgary*

Time: 11:00 – 12:15

Parallel session 39: Strategies and interventions for person-centered supportive/psychosocial care in LMICs

Theme: Adapting PSO care in LMI countries
Chair: Isaiah Gitonga, *National College of Ireland*

Presentations:

11:00 - 12:15	Oral #155 Stronger Together, a Peer-to-Peer Support Toolkit	Carolyn D. Taylor, Global Focus on Cancer
11:00 - 12:15	Oral #156 The MADCaP psycho-oncology working group: Extending reach to culturally tailored, evidence-based psycho-social interventions for African men affected by Prostate Cancer	David W. Lounsbury, Albert Einstein College of Medicine
11:00 - 12:15	Oral #188 Patient-centered care - what does it mean?	Anna Cabanes, Global Focus on Cancer
11:00 - 12:15	Oral #461 THE IPOS ECHO: Evaluation of the ECHO training model in Pan-African Capacity-Building Program in Psycho-Oncology	Chioma Asuzu, University of Ibadan

Time: 11:00 – 12:15

Parallel session 40: Work & (p)rehabilitation

Theme:
Chair:

Presentations:

11:00 - 12:15	Oral #515 Adopting motivational counseling to promote return to work: Evaluating a training program for health insurance practitioners	Isha Rymenans, KU Leuven (department of Work and Organisation Studies)
11:00 - 12:15	Oral #689 Applying the Illinois Work and Well-Being Model to Maximize Return to Work	David R Strauser, University of Illinois at Urbana- Champaign

11:00 - 12:15	Oral #640 Restore psycho-physical health after illness with a group program focused on aerobic exercise and proper nutrition: the lived experience of an Italian sample of breast cancer survivors	Denise Vagnini, Department of Psychology, Università Cattolica del Sacro Cuore
11:00 - 12:15	Oral #690 Prehabilitation for people with breast cancer in Aotearoa - New Zealand	Hanna van Waart, University of Auckland
11:00 - 12:15	Oral #449 Return to work among head and neck cancer patients: a longitudinal cohort study from cancer diagnosis to 5 years after primary treatment	Femke Jansen, AmsterdamUMC

Time: 11:00 – 12:15

Parallel session 41: Adapting the Fear of Cancer Recurrence Therapy (FORT) intervention to new populations: Mexican breast cancer survivors, caregivers of adult cancer survivors, and young adults with lymphoma

Theme: Innovation in psychosocial oncology interventions
Chair: Sophie Lebel, *University of Ottawa*

Presentations:

11:00 - 12:15	Oral #230 Methodological guide for cultural adaptation of manualized psychological intervention addressed to cancer patients (adults) in the context of the LMIC	Lizette Gálvez- Hernández, National Cancer Institute
11:00 - 12:15	Oral #300 Feasibility, Acceptability and Clinical Significance of the Family Caregiver – Fear Of Recurrence Therapy (FC-FORT): A Randomized Control Trial Pilot Study	Jani Lamarche, School of Psychology, University of Ottawa
11:00 - 12:15	Oral #387 Tailoring Fear of Cancer Recurrence Therapy for Young Adults with Lymphoma: Engaging the Voices of People with Lived Experience	Aliza Panjwani, PhD, Princess Margaret Cancer Centre, University Health Network

Time: 11:00 – 12:15

Parallel session 42: Development and/or testing of outcome measures

Theme:
Chair:

Presentations:

11:00 - 12:15	Oral #59 “I see the words, but I can’t get them out”: Word-Finding Difficulties in Breast Cancer Patients	Amélie B. Richard, Lyon Neuroscience Research Centre
11:00 - 12:15	Oral #522 Self-Efficacy for Coping with Cancer: On the Construct Validity of the German Short Form of the Cancer Behavior Inventory	Juergen M. Giesler, University Medical Center Freiburg
11:00 - 12:15	Oral #457 Can the need for anxiety management interventions during radiation therapy sessions for head and neck cancer be predicted using a questionnaire to screen for claustrophobia?	Kerrie Ann Clover, Psycho-Oncology Service

- | | | |
|---------------|---|---|
| 11:00 - 12:15 | Oral #620 Developing a toolkit to measure quality of life in cancer patients and survivors across Europe: EUonQOL-kit | Alexandra Gilbert,
1Leeds Institute of
Medical Research at
St James', University
of Leeds |
| 11:00 - 12:15 | Oral #459 Evaluating Cancer Patients' Experiences with Doctor-Patient Communication: Development and Validation of a New Assessment Instrument | Mei-Ling Chen,
School of Nursing,
College of Medicine,
Chang Gung
University |

Time: 11:00 – 12:15

Parallel session 43: Psychosocial screening in families facing cancer

Theme: Cancer care across the life span (children, adolescent & young adults, adults, and older adults)

Chair: Marthe Egberts, *Ingeborg Douwes Centrum*

Presentations:

- | | | |
|---------------|---|---|
| 11:00 - 12:15 | Oral #116 Family Psychosocial Risk Screening with the Psychosocial Assessment Tool (PAT) | Anne Kazak,
Nemours Children's
Health |
| 11:00 - 12:15 | Oral #125 Psychosocial screening in families facing parental cancer: Adaptation of the Psychosocial Assessment Tool (PAT) and pilot data | Marthe Egberts,
Ingeborg Douwes
Centrum |
| 11:00 - 12:15 | Oral #275 Development of parental distress in male and female caregivers of a child with cancer | Marnik Paeps,
Prinses Maxima
Centrum |

Time: 11:00 – 12:15

Parallel session 44: Survivorship

Theme:

Chair:

Presentations:

- | | | |
|---------------|--|--|
| 11:00 - 12:15 | Oral #656 Changes of Psychological Distress and Related Factors in Newly Diagnosed Thyroid Cancer Patients: A 12-Month Longitudinal Study | Yeur-Hur Lai,
National Taiwan
University & Cancer
Center |
| 11:00 - 12:15 | Oral #258 Unmet supportive care needs trajectories during the first two years of cancer survivorship: a cross-country comparison between Hong Kong and the United Kingdom | Danielle Wing Lam
Ng, LKS Faculty of
Medicine, School of
Public Health,
Centre for Psycho-
Oncology Research
and Training, The
University of Hong
Kong |

11:00 - 12:15	Oral #16 Trajectories of Depression and Quality of Life in Cancer Survivors and Individuals Without Cancer: A Longitudinal Study in Europe	Svetlana Baziliansky, School of Social Work, University of Haifa
11:00 - 12:15	Oral #253 Health care utilisation and unmet needs in survivors of head and neck cancer in regional/remote Australia: a cross-sectional survey	Poorva Pradhan, Department of Head and Neck Surgery, Chris O'Brien Lifehouse,
11:00 - 12:15	Oral #288 Psychosocial complaints among advanced cancer survivors treated with immune checkpoint blockade	Nathalie Vanlaer, Vrije Universiteit Brussel (VUB), Universitair Ziekenhuis Brussel (UZ Brussel)

Time: 11:00 – 12:15

Parallel session 45: Other Value-based and person-centered cancer care

Theme:

Chair:

Presentations:

11:00 - 12:15	Oral #520 Relationships between dyadic coping, perceived stress and self-efficacy in Chinese nasopharyngeal carcinoma patients.	Jie Jiang, School of Nursing, Sun Yat-sen University
11:00 - 12:15	Oral #126 The Attachment Position of Patients with Cancer: Does it Predict the Intensity of Psychological Treatment?	Martijn van de Kerkhof, Helen Dowling Instituut (HDI)
11:00 - 12:15	Oral #691 Psychosocial factors associated with quality of life in patients undergoing treatment: an umbrella review.	Chiara Marzorati, IEO, European Institute of Oncology IRCCS, Milan, Italy
11:00 - 12:15	Oral #112 Psychiatric and cognitive function in patients with serotonin producing neuro-endocrine tumours.	Froukje de Vries, Department of Psychiatry, Netherlands Cancer Institute
11:00 - 12:15	Oral #277 OPTIONS: What choices did women at increased risk of developing breast cancer make regarding surveillance, risk-reducing surgery and lifestyle changes?	Laura Saris, Division of Psychosocial Research and Epidemiology, Netherlands Cancer Institute

Time: 13:00 – 14:00

Parallel session 46: DIGITAL

Theme:

Chair:

Presentations:

13:00 - 14:00	Oral #600 Reasons for refusal to use the psycho-oncology mobile phone application among patients with primary breast cancer	Marta Pawetczak-Szastok, Maria Skłodowska-Curie National Research Institute of Oncology (MSCNRIO) Gliwice Branch
13:00 - 14:00	Oral #611 Exploring the value of Large Language Model Chatbot responses in answering patient questions regarding melanoma: a comparison with established patient information resources	June Kievits, Erasmus MC Cancer Institute, University Medical Center Rotterdam
13:00 - 14:00	Oral #521 Empowering Cancer Care: Virtual Psycho-oncology Clinic Approach	Evgeniia Ananeva, Virtual Psycho-oncology Clinic Salute
13:00 - 14:00	Oral #627 Developing an online support program for breast cancer and head and neck cancer patients undergoing radiotherapy (OPUS) – A study protocol	Theresa Müller, National Center for Tumor Diseases (NCT/UCC), University Hospital Carl Gustav Carus

Time: 13:00 – 14:00

Parallel session 47: Patient oriented

Theme:

Chair:

Presentations:

13:00 - 14:00	Oral #658 The importance of listening to the patient voice. How a planned ovarian cancer decision aid developed into a diagnosis support tool.	Yvonne O'Meara, School of Medicine, Catherine McAuley Research Centre, Mater Misericordiae University Hospital
13:00 - 14:00	Oral #537 THE MEDIATING ROLE OF MENTAL ADJUSTMENT IN THE RELATIONSHIP BETWEEN PERCEIVED STRESS AND QUALITY OF LIFE IN CANCER PATIENTS	Charles Umeh, Department of Psychiatry, College of Medicine, University of Lagos

13:00 - 14:00	Oral #542 Reframing Cancer Services through Youth Collaboration and Patient-Oriented Research – an example from Finland	Anna-Elina Rahikainen, Helsinki University Hospital Comprehensive Cancer Center
13:00 - 14:00	Oral #643 'I live with Lynch' A qualitative interview study exploring support needs for shared decision-making about genetic cancer management	Kelly Kohut, University of Southampton

Time: 13:00 – 14:00
Parallel session 48: Implementation
Theme:
Chair:

Presentations:

13:00 - 14:00	Oral #576 Early Insights on Clinical Implementation of Psychedelic-Assisted Therapies into Psychosocial Oncology Care: Research Driving Practice	Roxanne Sholevar, Dana-Farber Cancer Institute
13:00 - 14:00	Oral #276 Providing equitable and affordable access to clean water for people living with cancer: experiences of addressing financial inequalities in a rural and coastal setting	Kathie McPeake, NHS Lincolnshire Integrated Care Board
13:00 - 14:00	Oral #75 Perspective of oncological experts - A mixed-methods approach to explore barriers and solutions to enhance suicide prevention	Tamara Schwinn, University Medical Center of the Johannes Gutenberg-University Mainz
13:00 - 14:00	Oral #415 A systematic review and meta-analysis of couple-based dyadic intervention on psychological distress of cancer patients and their partners	Qian Sun, Sun Yat-sen University

Time: 15:30 – 16:30
Parallel session 49: Hope and fear in people with advanced cancer.
Theme: Palliative and end-of-life care
Chair: Anne Huisman, *Netherlands Cancer Insitute*

Presentations:

15:30 16:30	Oral #187 Interventions for death anxiety in advanced cancer	Froukje de Vries, Department of Psychiatry, Netherlands Cancer Institute
15:30 16:30	Oral #474 Conversations about hope and fear in the cancer clinic	Anne Huisman, Netherlands Cancer Institute

15:30 16:30 **Oral #529 Hope springs eternal, but how to deal with it... The meaning of hope from two different perspectives: people with incurable cancer and health professionals** Corine Nierop-van Baalen, Rotterdam University of Applied Science, Research Centre of Innovations in Care

Time: 15:30 – 16:30

Parallel session 50: Sexual life after cancer: Hispanic women's issues, assessment and interventions

Theme: Survivorship

Chair: Luzia Travado, *Champalimaud Clinical and Research Center, Lisbon, Portugal*

Presentations:

15:30 16:30 **Oral #195 Sexuality assessment in breast cancer survivors (BCS): barriers and opportunities** Tania Estapé, FEFOC FUNDACIÓ

15:30 16:30 **Oral #239 Mujer Plena: Group intervention to improve sexual life** Isabel Centeno, Hospital Zambrano Hellion-Tec Salud

15:30 16:30 **Oral #391 Sexual unmet needs and psychosocial factors in Mexican breast cancer survivors** Lizette Gálvez-Hernández, National Cancer Institute

Time: 15:30 – 16:30

Parallel session 51: Psychosocial Care and Pediatric Cancer Survivorship: Current Trends and Way forward

Theme: Survivorship

Chair: Surendran Veeriah, *Cancer Institute (WIA)*

Presentations:

15:30 16:30 **Oral #659 Psycho-Social Late Effects of Childhood Cancer Survivors in South East Asia** Divya Rajkumar, Cancer Institute(WIA)

15:30 16:30 **Oral #683 Psychosocial Sequelae of Childhood Cancer Survivors in Low Middle-Income Countries** Surendran Veeriah, Department of Psych oncology, Cancer Institute(WIA)

15:30 16:30 **Oral #685 Partnership in Cancer Survivorship Optimisation : Role of Not for profit organizations** Vandana Dhamankar, Indian Cancer Society

Time: 15:30 – 16:30

Parallel session 52: Advancing Patient-Partner Engagement in Cancer Care Services: Multidimensional Impacts of an Organizational Innovation

Theme: Other Value-based and person-centered cancer care

Chair: Karine Bilodeau, *University of Montreal*

Presentations:

15:30 16:30	Oral #226 Promoting Patient-Partner Engagement in Research: A successful collaboration with the Cancer Partnership Hub	Karine Bilodeau, University of Montreal
15:30 16:30	Oral #227 Empowering Patients: The Evolution and Impact of the Cancer Partnership Hub (CPH) from a Patient-Partner Perspective	Sandie Oberoi, Centre intégré universitaire de santé et services sociaux de l'Est-de- l'Île-de-Montréal
15:30 16:30	Oral #293 Cancer Partnership Hub (CPH): A Comprehensive Approach to Fostering Patient Engagement in Multiple levels in Cancer Care Services	Deborah Pascale, Centre intégré universitaire de santé et services sociaux de l'Est-de- l'Île-de-Montréal

Time: 15:30 – 16:30

Parallel session 53: Facilitating International Collaboration in Survivorship

Theme: Adapting PSO care in LMI countries

Chair: Kathy Ruble, *Johns Hopkins University, School of Medicine*

Presentations:

15:30 16:30	Oral #153 Global trend, programs, and next steps for psycho-oncology survivorship care	Clifton Thornton, Children's Hospital of Philadelphia
15:30 16:30	Oral #154 An overview of post treatment cancer survivorship care in Africa	Isaiah Gitonga, Maynooth University
15:30 16:30	Oral #159 Health care in cancer survivors in Costa Rica, a Middle-Income Country	Denis Landaverde, Chief of Medical Oncology Mexico Hospital, Caja Costarricense de Seguro Social

Time: 15:30 – 16:30

Parallel session 54: Challenges patients with a rare cancer face, the impact on these patients' trust and the value of social and clinical networks.

Theme: Equity, diversity and inclusion in cancer care and research

Chair: Saskia Duijts, *Netherlands Comprehensive Cancer Organisation*

Presentations:

15:30 16:30	Oral #107 Disentangling trust of patients with rare cancer in their healthcare professionals and the healthcare system: a qualitative interview study.	Saskia Duijts, Netherlands Comprehensive Cancer Organisation
15:30 16:30	Oral #109 Diagnostic pathways for patients with a rare cancer type: findings from a cross-sectional survey in The Netherlands	Catarina Simões Padilla, The Netherlands Cancer Institute
15:30 16:30	Oral #119 The role of sharing personal stories and discussing different coping strategies: analysis of user generated content on blogs and forums in the context of rare cancers	Katelijne P. Sanctorum, imec- SMIT, Studies on Media, Innovation & Technology, Vrije Universiteit Brussel
15:30 16:30	Oral #117 Barriers to Sexual and Romantic Relationships for Unpartnered Young Adult Cancer Survivors	Lydia Chevalier, Dana-Farber Cancer Institute

Time: 15:30 – 16:30

Parallel session 55: Towards lifestyle interventions for cancer survivors

Theme: Survivorship

Chair: Renate Winkels, *Wageningen University, Division of Human Nutrition & Health, Wageningen, the Netherlands*

Presentations:

15:30 16:30	Oral #488 The effect of a person-centered lifestyle program on cancer-related fatigue in colorectal cancer survivors: results from the SoFiT randomized controlled trial	Judith de Vries-ten Have, Wageningen University
15:30 16:30	Oral #503 Are lifestyle factors associated with the development of second primary cancers? Results from the PROFILES registry	Nicole Ezendam, Netherlands Comprehensive Cancer Organization (IKNL)

15:30 16:30 **Oral #525 Determinants of trajectories in World Cancer Research Fund/American Institute for Cancer Research lifestyle recommendations adherence in breast cancer survivors with and without multimorbidity**

Bo Brummel,
Center of Research on Psychological disorders and Somatic diseases, Department of Medical and Clinical Psychology, Tilburg University

Time: 15:30 – 16:30

Parallel session 56: Behavioral Interventions to Reduce Morbidity and Mortality in Survivors of Pediatric Cancer

Theme: Survivorship

Chair: Carolyn R. Bates, *University of Kansas Medical Center, Senior Investigator and Associate Professor Departments of Oncology, Psychology and Psychiatry* Lady Davis Institute for Medical Research and McGill University Montréal, Québec, Canada

Presentations:

15:30 16:30	Oral #120 NOURISH-T+: A Healthy Lifestyle Intervention Targeting Parents of Pediatric Cancer Survivors with Obesity from Diverse Family Backgrounds	Marilyn Stern, University of South Florida
15:30 16:30	Oral #240 Barriers to connecting adolescent and young adult cancer survivors to evidence-based vaping cessation programs within survivorship clinic settings	Rachel Webster, St. Jude Children's Research Hospital
15:30 16:30	Oral #545 Improving HPV PROTECTions in the Pediatric Oncology Setting: Examining the Impact of a Provider Communication Intervention on Human Papillomavirus (HPV) Vaccine Practices Pre/Post Program Implementation (IM)	James Klosky, Emory University School of Medicine, Dept. of Pediatrics
