

FINAL POSTER PROGRAMME

Guidelines – poster presenters

There will be a daily poster change. On each day, there will be one dedicated postervisit session (which can be found in the overview below at postervisit #) during which the speaker is expected to be present at their poster. For the rest of the day, the poster will remain displayed, but it is not required to be present at the poster.

The poster should be hung up by 09:00 at the latest on the poster board with the poster number (which can be found in the overview below at poster #)

The poster can be taken down after the end of the program:

Wednesday, September 25: after 18:30

Thursday, September 26: after 17:15

Friday, September 27: after 17:00

Unfortunately, there is no possibility to change the date and time of the poster presentations.

More detailed instructions can be found [here](#).

Friday 27 September 2024 – postervisit 4

Presentations:

Poster #	Postervisit #	Abstract #	Abstract title	Theme	Presenter
1	Postervisit 4	250	Mexican Survivors and Therapists' assessment of the Culturally Adapted Manual after a group therapy of Fear of Cancer Recurrence (FORT-Mx)	Adapting PSO care in LMI countries	Lizette Gálvez-Hernández
2	Postervisit 4	9	A Mental Health Nurse in Pediatric Hematology-Oncology : A Novel Practice	Cancer care across the life span (children, adolescent & young adults, adults, and older adults)	Pascal Bernier

3	Postervisit 4	10	Psychological distress in fathers of children with cancer during active treatments: a scoping review	Cancer care across the life span (children, adolescent & young adults, adults, and older adults)	Pascal Bernier
4	Postervisit 4	28	Exploring the effectiveness of psychosocial interventions designed to address psychosocial distress in young facing a cancer diagnosis within the family	Cancer care across the life span (children, adolescent & young adults, adults, and older adults)	Ash Hosseini
5	Postervisit 4	35	Diagnosis related information preferences of adult cancer patients in Armenia	Cancer care across the life span (children, adolescent & young adults, adults, and older adults)	Alisa Kamalyan
6	Postervisit 4	38	Psychological distress in parents with cancer and its association with parenting concerns, self-efficacy and emotion regulation – A cross sectional questionnaire study	Cancer care across the life span (children, adolescent & young adults, adults, and older adults)	Maria Romare Strandh
7	Postervisit 4	172	PREVALENCE OF SUICIDAL IDEATION, ANXIETY AND DEPRESSION AMONG CANCER PATIENTS IN THE FEDERAL MEDICAL CENTRE, ABEOKUTA, OGUN STATE, NIGERIA	Cancer care across the life span (children, adolescent & young adults, adults, and older adults)	Chioma Asuzu

8	Postersession 4	183	Using Experienced Based Co-Design (EBCD) in the development of a tool kit for use by Health and Social Care Professionals (HSCPs) with informal caregivers with cancer: study protocol	Cancer care across the life span (children, adolescent & young adults, adults, and older adults)	Lorraine Wright
9	Postersession 4	184	The impact of a cancer diagnosis on informal caregivers: findings from a large, multi-stakeholder, qualitative study	Cancer care across the life span (children, adolescent & young adults, adults, and older adults)	Lorraine Wright
10	Postersession 4	189	Shifting Tides of Hope and Support: Unveiling the Complex Relationship Between Age, Depression, and Social Dynamics in Cancer Care	Cancer care across the life span (children, adolescent & young adults, adults, and older adults)	Gil Goldzweig
11	Postersession 4	210	Meeting psychological consequences after cancer diagnosis for AYA's with a person – centered approach through “Team Young”	Cancer care across the life span (children, adolescent & young adults, adults, and older adults)	Helena Ilstedt
12	Postersession 4	285	Determinants of mental health issues in adolescents and young adults with cancer: Preliminary results of a Portuguese multicentric study	Cancer care across the life span (children, adolescent & young adults, adults, and older adults)	Maria Carolina Neves

13	Posters visit 4	287	Validation of a scale to assess fear of cancer recurrence among Portuguese adolescents and young adults	Cancer care across the life span (children, adolescent & young adults, adults, and older adults)	Maria Carolina Neves
14	Posters visit 4	313	Capturing the Experiential Knowledge of Young Adults Diagnosed with Cancer: Overview of a Methodological Innovation	Cancer care across the life span (children, adolescent & young adults, adults, and older adults)	Charlotte G�linas-Gagn�
15	Posters visit 4	335	Addressing Psychosocial Issues in Young Adult: Development and evaluation of E-Learning Training for Oncology Nurses	Cancer care across the life span (children, adolescent & young adults, adults, and older adults)	Karine Bilodeau
16	Posters visit 4	350	Teen Cancer Connection: Needs assessment to inform development of an Adolescent and Young Adult oncology program at a large Canadian paediatric centre.	Cancer care across the life span (children, adolescent & young adults, adults, and older adults)	Lori Bernstein
17	Posters visit 4	359	Psychometric Validation of a New Patient Reported Outcome (PRO) to Assess Depressive Symptoms in Older Adults with Cancer (OACs)	Cancer care across the life span (children, adolescent & young adults, adults, and older adults)	Christian Nelson

18	Postervisit 4	52	Cortisol, IL-6, Anxiety, Depression and Quality of Life Difference Before and After Mastectomy: A Study Among Indonesian Women with Breast Cancer	Cancer care across the life span (children, adolescent & young adults, adults, and older adults)	Aulia Iskandarsyah
19	Postervisit 4	590	Optimising Care: Supporting women with metastatic breast cancer through exercise and diet	Exercise/pre-habilitation and rehabilitation in cancer	Marina Reeves
20	Postervisit 4	355	Preparing the Next Generation of Psycho-Oncology Leaders: Systematic Strategies to Develop, Harness, and Nurture Leadership Skills	Health care provider wellness	Juee Kotwal
21	Postervisit 4	146	Crucial sources of oncology team resilience at work in Quebec (Canada): A sequential exploratory study using fuzzy cognitive mapping (FCM)	Health care provider wellness	Dominique Tremblay
22	Postervisit 4	432	Acceptance and Commitment Therapy (ACT) in oncosexual care for rare genital cancer patients.	Innovation in psychosocial oncology interventions	Ilaniek Zantingh
23	Postervisit 4	441	Harmonising Hope - Exploring the Impact of Silent Disco Events on Psychological Well-Being in Cancer Patients, Survivors and Caregivers - Study Protocol	Innovation in psychosocial oncology interventions	Teodora Cordos
24	Postervisit 4	494	Efficacy and budget impact of a tailored psychological intervention program targeting cancer patients with adjustment disorder: a randomized controlled trial	Innovation in psychosocial oncology interventions	Karen Holtmaat
25	Postervisit 4	519	Money Matters: Unpartnered Breast Cancer Patients Experience Significant Financial Distress	Innovation in psychosocial oncology interventions	Lauren Shea

26	Postervisit 4	580	Redefining the pivotal visit for cancer distress screening and interventions	Innovation in psychosocial oncology interventions	Nirav Antao
27	Postervisit 4	614	Integrated pshychoncological care for advanced cancer patients: psychoncological model in a simultaneous care clinic	Innovation in psychosocial oncology interventions	Irene Guglieri
28	Postervisit 4	626	First results of a dyadic internet-based mindfulness-based cognitive therapy (couple eMBCT) targeting cancer-related fatigue.	Innovation in psychosocial oncology interventions	Rosalie van Woezik
29	Postervisit 4	652	Evaluation of efficacy of the Mind programme against a support group intervention: preliminary results from a randomized controlled trial in women with breast cancer	Innovation in psychosocial oncology interventions	Andreia Soares
30	Postervisit 4	653	Post-Traumatic Stress Disorder (PTSD) Screening for Hematopoietic Stem Cell Transplant (HSCT) Patients	Innovation in psychosocial oncology interventions	Keiko Wahlin
31	Postervisit 4	655	The impact of interventions on psychological resilience in colorectal cancer survivors: A mixed methods systematic review	Innovation in psychosocial oncology interventions	Wei Wei
32	Postervisit 4	657	Feasibility and effects of a support group intervention for women with breast cancer: Preliminary results	Innovation in psychosocial oncology interventions	Andreia Martens Soares
33	Postervisit 4	700	Systematic review of psychosocial interventions for promoting benefit finding in cancer survivors (protocol).	Innovation in psychosocial oncology interventions	Kian Hughes
34	Postervisit 4	703	How to Distress screening - OptiScreen training for nurses	Innovation in psychosocial	Lara Dreismann

				oncology interventions	
35	Postervisit 4	629	Protocol for developing digital psychoeducation to address the psychological distress and treatment nonadherence of women with breast cancer throughout the breast cancer care pathway in Indonesia	Innovation in psychosocial oncology interventions	Hari Setyowibowo
36	Postervisit 4	404	Longitudinal associations between senescence-associated biomarkers and peripheral neuropathy symptoms among colorectal cancer patients	N Cancer treatment-related symptom and toxicity management	Dounya Schoormans
37	Postervisit 4	405	Longitudinal associations of biological ageing-related markers with peripheral neuropathy in colorectal cancer patients up to 2 years after diagnosis	N Cancer treatment-related symptom and toxicity management	Dounya Schoormans
38	Postervisit 4	174	Real-world patient outcomes and experiences with abemaciclib in combination with endocrine therapy for HR+/HER2- advanced or metastatic breast cancer: qualitative findings of a mixed-methods study	N Cancer treatment-related symptom and toxicity management	Helena Harder
39	Postervisit 4	33	The perspective of caregivers and nurse navigators following the use of the Distress Detection Tool (DDT) for parents of children with cancer	Other Value-based and person-centered cancer care	Pascal Bernier
40	Postervisit 4	36	Towards an improved conceptualization of emotions in patients with cancer	Other Value-based and person-centered cancer care	Joost Dekker
41	Postervisit 4	69	Illness and prognostic understanding, and correlates in 78 patients with metastatic treatment-resistant cancer in France	Other Value-based and person-centered cancer care	Anne Brédart

42	Postervisit 4	144	DEVELOPMENT OF AN INTERVENTION TOOL FOR COUPLES FOLLOWING LOSS	Other Value-based and person-centered cancer care	zeynep Armay
43	Postervisit 4	185	The caregiver's journey: who cares for the carer? A holistic approach to cancer care through integration of informal caregivers (HIPPOCRATIC)	Other Value-based and person-centered cancer care	Petya Zyumbileva
44	Postervisit 4	317	Patient Experiences of Outpatient Medical Oncology Infusions and Preferences for Receiving Treatment Closer-to-Home	Other Value-based and person-centered cancer care	Rob McNeill
45	Postervisit 4	357	e-Health with patient-reported outcome measures to improve proactive patients' needs assessment and personalized cancer care	Other Value-based and person-centered cancer care	Jolanda Friesen-Storms
46	Postervisit 4	368	Patients' perceptions of patient-centered communication with healthcare providers and associated factors in Japan – the INFORM Study 2020	Other Value-based and person-centered cancer care	Masako Okamura
47	Postervisit 4	472	You learn to live; it is an altered existence: A study on mothers who care for adolescents and young adults navigating a sarcoma diagnosis.	Other Value-based and person-centered cancer care	Maureen Mae Lin Tan
48	Postervisit 4	482	A qualitative systematic review on patient, professional and carer experiences of communicating a lung cancer diagnosis	Other Value-based and person-centered cancer care	Samuel Cooke
49	Postervisit 4	490	Identifying patient engagement interventions to support people with lung cancer: A rapid systematic review	Other Value-based and person-centered cancer care	Samuel Cooke
50	Postervisit 4	654	Psychological flexibility mediates the association between perceived health state and depressive symptoms in women with breast cancer	Other Value-based and person-	Andreia Soares

				centered cancer care	
51	Postervisit 4	329	Exploring Specific Mechanisms of Change in a Dog-Assisted Psycho-Oncological Group Intervention: A Qualitative Interview-Based Analysis	Other Value-based and person-centered cancer care	Mareike Thomas
52	Postervisit 4	65	Exploring the Lived Experience of Pancreatic Cancer in Northern Ireland: A Grounded Theory Study Protocol	Patient oriented research approaches	Lana Cook
53	Postervisit 4	150	Enhancing Satisfaction in Oncology Family Meetings Through Proactive Communication	Patient oriented research approaches	Wen-Chun Yu
54	Postervisit 4	157	The lived experience of post-operative rectal cancer patients with distress related to low anterior resection syndrome: a meta-synthesis study	Patient oriented research approaches	Ling-Chun Lu
55	Postervisit 4	164	Involving young adult cancer survivors as co-researchers in the development of an internet intervention for fertility distress and sexual dysfunction following cancer	Patient oriented research approaches	Sarah Marklund
56	Postervisit 4	169	Recording Diagnostic Conversations for Communication Research Purposes in Pediatric Leukemia	Patient oriented research approaches	Petra Buursma
57	Postervisit 4	212	PSYCHOLOGICAL DISTRESS, ANXIETY, DEPRESSION AND SUICIDE IDEATION AMONG WOMEN LIVING WITH BREAST CANCER AND RECEIVING TREATMENT IN WINDHOEK: A CASE STUDY	Patient oriented research approaches	Zara Mbangtang
58	Postervisit 4	228	What does stress newly diagnosed breast cancer patients from a low-middle-income country?	Patient oriented research approaches	Lizette Gálvez-Hernández
59	Postervisit 4	241	The contribution of awareness of illness on psychological difficulties and mental health in cancer patients in early, metastatic or follow-up setting.	Patient oriented research approaches	Raffaela Daria Giovanna Sartori

60	Postervisit 4	303	Impact of pain severity and interference on psychopathology in cancer patients: a comprehensive analysis	Patient oriented research approaches	Francesca Bardi
61	Postervisit 4	425	Stigmatization of cancer patients – risk factors and the impact on quality of life: data from a prospective multi-center study (LUPE)	Patient oriented research approaches	Jochen Ernst
62	Postervisit 4	426	Neighbourhood disadvantage of people with cancer: the role on distress	Patient oriented research approaches	Francesca Riccardi
63	Postervisit 4	430	Determinants of the need for psychological support in people with cancer during hospitalization	Patient oriented research approaches	Francesca Riccardi
64	Postervisit 4	484	Acceptance and valued living in patients with cancer: associations with mental health and health-related quality of life	Patient oriented research approaches	Christina Sauer
65	Postervisit 4	504	The assessment of distress is relatively stable during the first year of initial treatment of patients with highly malignant gliomas	Patient oriented research approaches	Jana Knific
66	Postervisit 4	523	A qualitative approach to understanding coping and the development of posttraumatic growth in cancer	Patient oriented research approaches	Klara Knauer
67	Postervisit 4	649	A sick body, the wound of the soul: a path of individuation and integration of the Shadow, in light of Carl Gustav Jung's analytical approach.	Patient oriented research approaches	Christina Sanson
68	Postervisit 4	682	Psychosocial experiences among Head and Neck cancer patients with Nasogastric tube feeding	Patient oriented research approaches	Surendran Veeraiah
69	Postervisit 4	686	Preference for Non-Operative Treatment Strategy in Locally Advanced Rectal Cancers	Patient oriented research approaches	Surendran Veeraiah
70	Postervisit 4	78	Coping with Cancer: The Role of Perceived Control in Sustaining Mental Health Among Cancer Patients.	Patient oriented research approaches	Judith Hirschmiller

71	Postervisit 4	41	Co-Design and Evaluation of a Digital Serious Game to Promote Public Awareness about Pancreatic Cancer	Primary, secondary and tertiary cancer prevention	Tara Anderson
72	Postervisit 4	306	Family-level impact of extensive germline predisposition screening in childhood cancer: A multi family member interview analysis in parents.	Primary, secondary and tertiary cancer prevention	Sophie Van Hoyweghen
73	Postervisit 4	495	Impact of lack of immediate access to treatment to pre-invasive lesions on patients' psychology and public health seeking behavior.	Primary, secondary and tertiary cancer prevention	Ishak Lawal
74	Postervisit 4	517	Psychological burden and associated factors before and after individualized risk-assessment for men with familial and hereditary prostate cancer risk (PROFAM-PSYCH): Study Protocol	Primary, secondary and tertiary cancer prevention	Maike Klett
75	Postervisit 4	500	Psychological distress and MRI surveillance adherence in retinoblastoma survivors aged 15 and over: two-year follow-up	Primary, secondary and tertiary cancer prevention	Morgan Dondin
76	Postervisit 4	88	Exploring Turkish Oncology Patients' Emotional Responses to the Term "Cancer": A Pilot Cultural Descriptive Study	Sociodemographic, culture, and sex/gender issues in cancer	Ozan BAHCIVAN
77	Postervisit 4	179	psychosocial needs of cancer patients in Peru	Sociodemographic, culture, and sex/gender issues in cancer	samuel Gonzales Puell
78	Postervisit 4	213	Emotional distress in cancer patients: Peruvian population	Sociodemographic, culture, and sex/gender issues in cancer	Gonzales Puell Samuel
79	Postervisit 4	247	Limited English proficiency is a barrier to adhering to guideline preventative care: Colorectal cancer (CRC) screening behaviors among a diverse sample of adults in California, USA	Sociodemographic, culture, and sex/gender issues in cancer	Dara Sorkin
80	Postervisit 4	280	Supportive care needs in patients with newly diagnosed cancer and their relatives: Results of a	Sociodemographic, culture, and	Ute Goerling

			multi-center prospective longitudinal observational study	sex/gender issues in cancer	
81	Postervisit 4	296	Quality of life (QOL) at Glioma diagnosis and its relationship with clinical and sociodemographic characteristics: a pilot study	Sociodemographic, culture, and sex/gender issues in cancer	Stefano Caneva
82	Postervisit 4	496	GENDER DIFFERENCIES IN PSYCHOLOGICAL SUPPORT REQUEST IN AN ONCOLOGY UNIT	Sociodemographic, culture, and sex/gender issues in cancer	Tania Estapé
83	Postervisit 4	670	Toolbox ‘Cancer and sexuality’	Sociodemographic, culture, and sex/gender issues in cancer	Annelies Verachtert
84	Postervisit 4	196	Prevalence of mental disorders in newly diagnosed cancer patients in relation to socioeconomic status: a multi-center prospective longitudinal observational study	Sociodemographic, culture, and sex/gender issues in cancer	Franziska Springer
85	Postervisit 4	197	EVALUATION OF A CANCER SURVIVORSHIP CLINICAL PLACEMENT PROGRAM FOR ALLIED HEALTH PROFESSIONALS AND GENERAL PRACTICE NURSES	Survivorship	Tze Lin Chai
86	Postervisit 4	56	Life Satisfaction in Cancer Patients: The role of social support, locus control and coping strategies	Survivorship	Lovorka Brajkovic
87	Postervisit 4	124	Prevalence of symptoms indicative of late effects: A cross-sectional study of Danish colorectal cancer survivors 5-10 years after primary diagnosis	Survivorship	Johanne Dam Lyhne
88	Postervisit 4	170	Fatigue, pain and insomnia in cancer survivors and associations with sociodemographic, lifestyle and clinical factors – a SEQUEL study	Survivorship	Anne Katrine Levinsen
89	Postervisit 4	222	Mapping the supportive care needs of cancer survivors in the context of China: A scoping review	Survivorship	Mingchun Deng

90	Postervisit 4	224	Social determinants of health and physical activity in young adult cancer survivors	Survivorship	Acadia Buro
91	Postervisit 4	344	Examining alignment of educational supports to neurocognitive needs for pediatric survivors	Survivorship	Lisa Jacobson
92	Postervisit 4	511	Quality of life in uveal melanoma survivors and ophthalmologist/oncologist communication during survivorship in France – Protocol of a prospective observational mixed-method study	Survivorship	Anita MÜLLER
93	Postervisit 4	587	A systematic review on the needs of breast cancer survivors	Survivorship	Sara Paltrinieri
94	Postervisit 4	443	Longitudinal changes in insomnia and sleep duration among postmenopausal women with a history of cancer	Survivorship	Chloe Hery
95	Postervisit 4	364	Facilitating Adaptive Coping with Fear of Recurrence Among Breast Cancer Survivors: Qualitative Post-Intervention Outcomes from a Three-Arm Randomized Controlled Trial	Survivorship	Shelley Johns
96	Postervisit 4	307	Employment among Norwegian cancer survivors: Results from a 5-year registry-based study	Work rehabilitation	shahram Moradi
97	Postervisit 4	336	Return-to-work Process of People Who Have Received an Allogeneic Hematopoietic Stem Cell Transplantation to Treat Blood Cancer: Descriptive Results from a Survey	Work rehabilitation	Karine Bilodeau
98	Postervisit 4	417	Bridging Care and Career: The Experience of Industrial Nurses with Cancer Patients	Work rehabilitation	Ka Ryeong Bae
99	Postervisit 4	423	Work-related problems in a Spanish sample of breast cancer survivors women	Work rehabilitation	Tania Estapé

100	Postervisit 4	477	Experiences of cancer survivors and professionals with a serious game to prepare cancer survivors for return to work – a qualitative study	Work rehabilitation	Sietske Tamminga
101	Postervisit 4	502	The MILES intervention targeted at employers, aimed at enhancing successful return to work of employees with cancer: initial insights into recruitment of employee-employer dyads	Work rehabilitation	Judith Mollet
102	Postervisit 4	536	The PLACES study: protocol of a randomized controlled trial on the (cost-)effectiveness of a supported employment intervention aimed at enhancing work participation of unemployed and work-disabled cancer survivors	Work rehabilitation	Fenna van Ommen
103	Postervisit 4	541	Screening YA (Adolescent and Young Adult) Cancer Patients for Referral to VR (Vocational Rehabilitation) Services: A VR Readiness Screening Tool	Work rehabilitation	Rhonda Robert
104	Postervisit 4	586	Feasibility of an intensified, needs-oriented counseling intervention on the return to work of cancer survivors in outpatient psychosocial counseling centers: Counselors' perspective – Results from the CARES study.	Work rehabilitation	Paula Heidkamp
105	Postervisit 4	639	Feasibility of an intensified, needs-oriented counseling intervention on the return to work of cancer survivors in outpatient psychosocial cancer counseling centers from the survivors' perspective– results from the CARES study	Work rehabilitation	Kati Hiltrop
